Summary

Aaron J. Pacheco is a driven Computer Science student at the University of Houston, supplemented by coding boot camps in web development. With a GPA of 3.92 from San Jacinto College, he demonstrates academic excellence. Aaron's leadership roles in JROTC and Student Council, coupled with numerous awards, reflect his ability to excel. His dedication to community service underscores his commitment beyond academics. With a strong technical foundation and leadership experience, Aaron is poised to thrive in a software engineering role.
